

Ervin Tal-Gutelmacher

Innovative change driver and executive leader

Dr. Ervin Tal-Gutelmacher is the C.E.O of HYDROLITE Ltd., an Elbit Systems Subsidiary, focusing on leading-edge development of advanced hydrogen technologies. With 20 years of experience in hydrogen and energy-related innovation, project management, team leadership, steering committees, consortiums, and bilateral projects with industrial and academic partners, Dr. Tal-Gutelmacher leads and paves the company's current and future direction toward the development and deployment of advanced alkaline exchange membrane fuel cells and electrolysis technologies and devices. She is a noted Hydrogen Expert of the European Commission, holds numerous patents, several prestigious national and international awards, and hundreds of scientific contributions to journal and conference publications.
