

Dr. Avri Eitan is an assistant professor in the Department of Geography at the Hebrew University of Jerusalem. He previously served as a senior researcher at the Copernicus Institute of Sustainable Development at Utrecht University. With over ten years of regulatory experience in the energy and environmental domains, Dr. Eitan has held roles at the Israeli Ministry of Finance, private consulting firms, and senior advisory positions at the Israeli Electricity Authority and the Israeli Competition Authority. Dr. Eitan's research interests lie at the intersection of environmental policy and sustainable innovation, integrating insights from geography, environmental studies, public policy, and economics. He delves into socio-technical transitions toward sustainability, with a particular emphasis on the adoption of cleaner energy production technologies.
