

Dor Ganor is a seasoned business development executive with a proven track record of driving strategic growth and innovation in the cleantech sector. As the Director of Business Development at Phinergy, a leading energy storage company, Dor is dedicated to advancing sustainable technologies that contribute to a cleaner and more efficient future.

Phinergy is a pioneering Israeli company specializing in metal-air technology. Phinergy's innovative approach utilizes abundant metals like aluminum and zinc to store, transport, and generate clean, safe energy. This revolutionary technology offers significant advantages over traditional batteries, including higher energy density, longer life, and lower costs.

With extensive experience in business development, partnerships, and market analysis, Dor has successfully led initiatives at Phinergy, contributing to the company's growth and expansion. His ability to identify and capitalize on new market opportunities, combined with his deep understanding of the cleantech landscape, has been instrumental in driving the company's success.
